

Grahamvale Primary School

Grahamvale Primary School is a school of 392 students and is situated amongst orchards in the north east corner of Shepparton.

Our school is committed to providing quality education for all students within a caring and safe environment. We encourage all students to be confident, life-long learners who are able to form positive relationships with others. As members of a wider community, our students will become responsible citizens who are technologically literate and ready to accept the challenges of an ever changing world.

Our teaching is purposeful and focussed and teachers utilise data to ensure the learning needs of each student are being addressed. Whilst Grahamvale Primary School continues to grow, we have continued to uphold the traditional values of the school. A significant strength of our school is the high level of parental participation in school activities and programs.

Our facilities include a new building with 11 classrooms surrounding a central library. Flexible learning spaces are a feature of this building. Our library space provides us with an indoor area for performances and assemblies. An additional 6 classes are housed in portable buildings, with an art studio and music/drama room also in portable buildings.

Landscaping and gardens provide a very attractive environment but our playground area is inadequate for the number of students within the school. We hope to be allocated adjacent land to provide space for an oval and additional playground areas.
